

PRESS RELEASE

Eiffage's employees have massively subscribed to the capital increase reserved for them in accordance with the decision of the Board of Directors meeting on 28 June 2006, thereby confirming their loyalty to the Group and their determination to maintain a substantial employee shareholding. Including their investment in the SICAVAS Eiffage 2000 fund last April, employees will have invested over €250 million this year, the largest amount since inception of the LBO structure that formed the original employee shareholder interest in Eiffage in 1990.

Of the Group's employees in France, 56% subscribed to the capital increase. For the first time, employees of Eiffage's European subsidiaries also subscribed. In total, the capital increase represents 3.54% of Eiffage's capital.
