

## **PRESS RELEASE**

EIFFAGE and CAISSE DES DÉPÔTS have entered into discussions with a view to the latter taking a 35% holding in COMPAGNIE EIFFAGE DU VIADUC DE MILLAU, subject to agreement from the French government, which granted the concession.

This forms part of EIFFAGE'S strategy of optimising its concessions portfolio with a view to releasing resources for the development of its various activities, including the acquisition of further concessions. At the same time, the infrastructures essential for France's economic development constitute a major investment objective for CAISSE DES DÉPÔTS.

The discussions build on the long-standing partnership between EIFFAGE and CAISSE DES DÉPÔTS, in which respect CAISSE DES DÉPÔTS has informed EIFFAGE that it currently holds 3% of the company's capital.
