

**PRESS RELEASE**

EIFFAGE has signed an agreement with CDC Entreprises Equity Capital for the acquisition of the EPOLIS Group, the second-largest car park operator in France and Belgium and which is also present in Norway.

This agreement is subject to approval by the relevant competition authorities.

The proposed transaction covers 120,000 parking spaces, taking the total number of spaces managed by EIFFAGE to 150,000, of which around 100,000 in France, 24,000 in Belgium and 26,000 in Norway.

EIFFAGE will thus become one of the leading European car park operators, continuing its development in the area of concessions and recurrent services.

With the forthcoming opening of the Millau viaduct to traffic, EIFFAGE'S concession businesses will make an increasingly important contribution to the Group's operating profit in 2005.
