

Press release**Eiffage wins the contract for the design, build and maintenance of the Paris-Saclay hospital, worth €141 million, the Group's fourth major health sector operation in 2020**

Eiffage Construction, as part of a consortium, has signed the design, build and maintenance-servicing contract for the Paris-Saclay hospital, worth €141 million, with Groupe Hospitalier Nord-Essonne. Combining the medical, surgical and obstetric services from the Juvisy, Orsay and Longjumeau hospitals, this new facility will cover approximately 45,000 sqm, with a capacity of 416 beds or places. Works are due to begin in summer 2021 for completion in late 2023. Teams from the consortium will ensure maintenance and servicing of the hospital for the next five years.

This contract further reinforces Eiffage's position in the health sector, following three contracts already signed in 2020 by Eiffage Construction and Eiffage Énergie Systèmes. These 4 contracts amount to a total of almost €210 million.

In February 2020, Eiffage Construction won the design-build contract for the expansion of the Compiègne-Noyon hospital complex, on a general contractor basis. This operation will create 6,800 sqm of operating theatres, cardiology and endoscopy wards, and includes the renovation of the emergency unit. Eiffage Énergie Systèmes is responsible for designing and implementing the electrical and medical fluids work packages. The site will remain in use throughout the 24 months of on-site works, which will begin on completion of the 8 month design phase, for delivery expected in 2022.

In early 2020, Eiffage Construction won, as part of a consortium, the design-build contract for the restructuring and expansion of the Sens hospital complex, covering almost 11,000 sqm. This project includes the construction of a women, mothers and children's unit; haemodialysis clinic; health centre; and combined adult and paediatric emergency unit. Works will begin following the 7 month design phase, with delivery expected in late 2022.

In January 2020, Eiffage Énergie Systèmes signed two full works packages relating to the complete restructuring of the 60,000 sqm university hospital centre in Reims: the electrical works package, as part of a consortium, and the installation package for technical and HVAC equipment, plumbing, medical gas and fire protection systems. Delivery is expected by the end of 2023.

These new operations attest Eiffage's design and implementation expertise in the hospital sector, in construction as well as HVAC and energy systems.

About Eiffage

Eiffage is one of Europe's leading construction and concessions companies. The Group's activities are organised around the following business lines: construction, real estate and urban development, civil engineering, metal, roads, energy and concessions. Thanks to the experience of more than 72,500 employees, Eiffage generated revenues of €18.1 billion in 2019, of which almost 26% was outside France.

About Eiffage Construction

Eiffage Construction, a subsidiary of the Eiffage Group, one of Europe's leading construction and concessions companies, incorporates the complementary business lines of urban planning, property development, construction, facility management and maintenance. The company is strongly established in France with 10 regional divisions, and also in Belgium, Luxembourg, Switzerland and Poland. Eiffage Construction generated revenues of €4.2 billion in 2019.

About Eiffage Énergie Systèmes

Eiffage Énergie Systèmes designs, builds, operates and maintains electrical, industrial, HVAC and energy systems and facilities while respecting people and protecting the environment. Eiffage Énergie Systèmes provides a customised offer for the industrial, infrastructure and network markets, local authorities and the tertiary sector. Through its dense network of branches in more than 30 countries, Eiffage Énergie Systèmes builds close relationships and meets its customers' challenges head on. Its cutting-edge expertise enables it to provide innovative, high added-value solutions. Eiffage Énergie Systèmes generated revenues of €4.5 billion in 2019.
